## PROFESSIONAL EXPERIENCE

---

### Alpenwerk Maschinenbau GmbH

Munich, Germany

*Senior Mechanical Engineer*

Mar 2020 – Present

- Led the mechanical redesign of a hydraulic press line that reduced energy consumption by 22% and cut maintenance downtime across three production sites
- Introduced finite element analysis into the standard design review, catching stress problems before prototypes were built
- Supervised a team of six engineers and two apprentices

### Rheinstahl Technik AG

Stuttgart, Germany

*Mechanical Engineer*

Jul 2016 – Feb 2020

- Designed gearbox housings for agricultural machinery and managed the supplier relationships for castings and machining
- Wrote the test procedures used to certify every new product line

## EDUCATION

---

### Technical University of Example

Munich, Germany

*MSc Mechanical Engineering*

Oct 2013 – Sep 2015

Thesis on vibration damping in lightweight gearbox housings.

## SKILLS

---

SolidWorks, CATIA, ANSYS, MATLAB, Finite element analysis, Technical drawing, Project planning, Supplier management, Lean manufacturing, Python

## LANGUAGES

---

German (Native), English (Fluent), French (Basic)
